*If you have any questions about classes or dates, please call the Perinatal Education Coordinator at (304) 598-1484 or E-Mail Pamela.Poe@VandaliaHealth.org

The first two classes of the series (weeks #1 and #2) focus on birth as a natural process (as opposed to a “medical procedure.”) We will cover a number of topics designed to assist labor progress while helping mother cycle through the process. These topics include the stages of labor, anatomy, a natural birth film, relaxation, breathing, massage and comfort techniques, positioning for labor.

The second two classes (weeks #3 and #4) focus on epidurals, narcotic analgesics, medical interventions, cesarean birth, labor rehearsal and birth video, newborn procedures and a tour of the Birth Center. **Please be aware that just because you take weeks 3 & 4 class does not guarantee that you will receive an epidural at your request. You may still have to employ comfort techniques in labor until the anesthesiologist and your health care provider deem if/when it is appropriate to receive an epidural.**
